

Wall lamp

MARIO – 222370231

incl. 1x SMD LED, 6W · 1x 600lm, 3000K

incl. 1x SMD LED, 2,3W · 1x 200lm, 3000K

- **Switch**
- **Separately switchable**
- **IP20**
- **Not dimmable**

Timeless and minimalist. The simple design of the MARIO wall light goes just as well with an industrial style as it does with an elegant look. The round luminaire has a diameter of 16 cm and has two light sources that can be switched separately using integrated switches. Both the main light source with a light intensity of 600 lumens and the swivelling reading light with a light intensity of 200 lumens emit a pleasantly soft light colour. The MARIO reading light can be individually aligned, making it ideal as a wall light next to the bed. The light is also equipped with the FLEXconnect feature. This means that the light can be attached to the wall as usual in any position and supplied with power via a mains cable or connected directly to the fixed connection. In this case, the cable can be easily removed from the light. The restrained colour scheme in matt white leaves plenty of scope for combining with existing interiors and colours. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.

Material construction

Metal · White mat
Acryl · White

Product dimensions

Diameter: 16cm
Weight: 1kg

Technical data

Light source: SMD – LED (integrated)
Watt: 6W
Lumen: 1x 600lm
Kelvin: 3000K
Color rendering (CRI): > 80 CRI
Lifetime: 20000H
Switching cycles: 10000x ON/OFF

operating voltage: 230V ~ 50Hz
Protection grade: 1
IP classification: IP20
