Ultra-modern and elegant at the same time - this is how the OSAKA LED ceiling light impresses. The luminaire with starlight cover has a round look and is made up of chrome-coloured and clear elements so that it can be easily integrated into a modern furnishing style. The OSAKA can be dimmed using a remote control and the light colour can be continuously adjusted from 3000 - 6000 Kelvin to create the right lighting atmosphere in the room. The luminaire also has a night light function, which can also be controlled via the remote control if required, and a memory function so that favourite settings can be saved. The light has a diameter of 60 cm and is therefore also ideal for illuminating large rooms. The light is made of chrome-coloured plastic and a white cover and can therefore be integrated into any furnishing style. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
