

Gople Lamp - Copper

IP20    CE Dimmerable: 

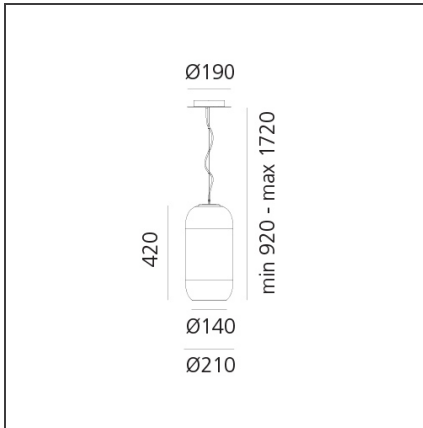

DESIGN BY

BIG - Bjarke Ingels Group

DESCRIPTION

The minimal and elegant shape of the Gople lamp enhances the beauty of the glass which is hand-processed according to an ancient Venetian technique, that makes each piece unique. Gople Lamp has three mesmerizing finishes, smooth white, and sparkle silver or copper, obtained with a vacuum metallization. Glass finishing is designed to ensure the best relation with the emitted light, screening the source and maximizing direct emission through transparency. The basic version with the traditional E27 socket is designed to provide different performance levels compared to the more innovative RWB version, where colours can be combined with each other to create lightscapes that meet space requirements. The patented RWB light technology helps plants grow, creates scenic or ambiance effects and provides functional white lighting. It is a new paradigm, a different way to approach coloured light for a project that is respectful of man and the environment.

TECHNICAL DRAWINGS

FEATURES

Article Code:	1405040A	Material:	Blown glass, aluminium
Colour:	Copper	Series:	Design, 2018
Installation:	Suspension		Artemide Collection
Environment:	Indoor		

DIMENSIONS

Height:	cm 42
Base Diameter:	cm 19
Max Height from ceiling:	cm 172

SOURCES NOT INCLUDED

Category:	LED
Number:	1
Watt:	20W
Type:	2
Socket:	E27

LUMINAIRE

Watt:	20W
