Luminaires with textile shades create an atmospheric ambience and cosiness. The light is gently emitted into the surroundings via the fabric shade, creating a cosy atmosphere. Ideally, the floor lamp HOTEL finds its place next to the sofa, because for the best possible lighting result provides, in addition to the main light source, a flexible reading arm, which can be switched separately. The simple shape conveys a pleasant living ambience and is considered a classic in decorative lighting. Through the tasteful combination of the beige shades with brass, the lamp creates a stylish environment. For energy-saving lighting, it is recommended to use an LED illuminant. These are an optimal alternative to conventional halogen lamps and stand for a high quality of light and energy savings of up to 80%. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.
