SOLO - a simple but absolutely stylish floor lamp. Thanks to its narrow body, the floor lamp doesn't need much space to enhance your living or sleeping area. Floor lamps are ideal as a supporting light source and make the most inconspicuous corners shine in new splendour. The timeless design can be easily combined with numerous trends and furnishing styles. The table lamp can be conveniently switched on and off using a foot switch. The simple design of the light is emphasised by the brushed aluminium colour scheme and there is plenty of scope for combining it with other colours. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
