DUOLINE – 701032

excl. 2x - · max. 600W

Features:

- IP20
- Wall- and ceiling mounting

The universal power supply is one of numerous components of the DUOLINE track system and establishes an electrical connection between the power supply and the DUOLINE system. The 2-phase system is extremely flexible and offers numerous options for customised lighting design. The universal feed can be used as a centre or end feed and has a maximum load capacity of 600 watts per phase. A 4-core power cable is required to use the universal feed in order to enable separate switching or dimming of the two phases. The various switching operations can be carried out either with a series switch or two separate wall switches or dimmers. The system in matt black creates structure and stylishly enhances modern living spaces.
