The FUERTE outdoor luminaire is characterised by its timeless yet modern appearance. The light filtered through the cover provides a pleasant light intensity in the garden, entrance area or on the terrace. In addition, the luminaire is particularly weather-resistant due to the IP54 protection class and the die-cast aluminium and is therefore suitable for lighting your outdoor area. The luminaire offers numerous application possibilities thanks to its simple form and modern colour scheme in anthracite and white. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED light sources have a long service life, produce less heat and protect the environment.
